

# ALIAN.T EMPOWERS THE SOLO LAW PRACTICE

THE ONLY  
GLOBAL LAW  
FIRM WHERE THE  
LAWYER IS THE  
CLIENT

Designed specifically for the solo lawyer who wants to remain solo but receive the benefits and the support of a large firm. Aliant's membership model allows you to keep practicing just the way you do today and buy access to our services and pricing. You get to be a partner at a global law firm, but on your terms!

As an Aliant attorney, you get:

## LOWER COSTS

As a bigger firm we have economies of scale and we pass the savings directly to you, without a markup. Insurance, bookkeeping, paralegals, software subscriptions and other services are cheaper as a group.

## REFERRALS

Network with other Aliant lawyers through monthly practice group and networking calls, and regional social events. Receive work and collaborate on larger projects by working in teams.

## INDEPENDENCE

Your practice does not change when you join us. Work from anywhere, choose your clients, set your hours and billing rates, and manage your career with the freedom and flexibility you want.

## SUPPORT

Aliant provides its lawyers with high-level paralegal support as well as inexpensive legal assistants. You get it for our cost, without any minimum commitments.

## ORIGINATION CREDITS

You receive origination credits for clients referred to other Aliant lawyers. The ability to cross-sell will increase your income without you having to work more.

## BRAND POWER

As a well-established law firm with a strong reputation, Aliant can help you attract top clients and improve your visibility. Our marketing team can help you boost leads and conversions.

## Our Services Include:

- + Paralegal and secretarial support
- + Malpractice insurance
- + Practice management software
- + Document management software
- + Email with Office 365
- + Bookkeeping, billings, collections
- + Marketing and business development
- + CLE + IT Support

**Aliant allows lawyers to combine the best of both worlds – independence of a solo practice, with the credibility, reach and economies of scale of a large firm.**
